BLUE MEADOW SIGNS MANAGEMENT CONTRACT WITH WBA ENTERTAINMENT

NASHVILLE (July 2011): WBA Entertainment's CEO Robert Williams has just added New York City's **Blue Meadow** to the company's artist roster. The group, made up of four men who are as talented vocally as they are instrumentally, signed a management contract with WBA Entertainment to take advantage of the company's networks and to devise and execute a business model that will enhance their careers.

About Blue Meadow: Blue Meadow consists of four singer-songwriters from NYC: Densen Curwen, Joedy Imbert, Dexter Lendor, and Jamal Reed. You may recognize the name **Jamal Reed** because of his success with the group Naturally 7. Best known for their distinct style of "vocal play" Naturally 7's style of R&B vocals mixed with beat boxing is carried over to Blue Meadow through Jamal's instantly identifiable voice.

Following the old adage "if you want something done right, do it yourself", the boys of Blue Meadow have set out to make music that is truly their own. By mixing an array of different styles into one pot and creating their version of popular rock, their self-titled debut album *Blue Meadow* proudly introduces a collection of musical styles that epitomize the unique essence, energy and special vibe that is the Big Apple. Inspired and influenced by such greats as The Beatles, Cold Play, U2, Boyz II Men, Billy Joel among others, the distinctive music of Blue Meadow will satisfy your many tastes and moods while moving your emotions to places you want them to go!

"Blue Meadow are gifted musicians and I believe that they will inspire and entertain you no matter what language you speak or what country you live in!"

– Glenn Blackman, Director of International Marketing – WBA Entertainment
