"A stunning, mindblower..." ...*Midwest Record Review*  
"This is what life is all about"...*This is books Music review*  
"Will have you raising a glass of the red stuff in thanks for this trio's life-affirming music." *Jazz Chicago*

They met in a castle in Germany. Before long they were jamming together and realized there was something special happening. They wrote with new inspiration for the CD they would make together, NEW WORLD FLAMENCO. Germany's famed duo Tierra Negra (Leo Henrichs and Raughi Ebert) and America's award-winning guitarist and harp-guitarist Muriel Anderson have found an exciting combination. Raughi's passionate flamenco guitar and Leo's pulsating rhythm merge with Muriel's beautiful melodies. Joined by drummer Danny Gottlieb, bassist Mark Egan both of the original Pat Metheny Group, and powerhouse bassist Victor Wooten, flamenco nuevo has found a new world.
